

Horizontal sections through cerebrum

Organization of basal nuclei (ganglia)

Interrelationship of thalamus, lentiform nucleus, caudate nucleus, and amygdaloid body (schema): left lateral view

F. Nasser

Schematic section through thalamus
(at level of broken line shown in figure at right)

Thalamic nuclei

CM	Centromedian
LD	Lateral dorsal
LP	Lateral posterior
M	Medial
MD	Medial dorsal
VA	Ventral anterior
VI	Ventral intermedial
VL	Ventral lateral
VP	Ventral posterior
VPL	Ventral posterolateral
VPM	Ventral posteromedial

Schematic representation of thalamus
(external medullary lamina and reticular nuclei removed)

- Lateral nuclei
- Medial nuclei
- Anterior nuclei

Superior dissection

Fornix: schema

Coronal section: posterior view

Posterior phantom view

Sagittal section of brain in situ

Medial surface of cerebral hemisphere: brainstem excised

Left lateral phantom view

Right lateral ventricle

Coronal section of brain: posterior view

Schematic section through thalamus
(at level of broken line shown in figure at right)

Thalamic nuclei

CM	Centromedian
